

Yookidoo®
celebrating discovery

2022

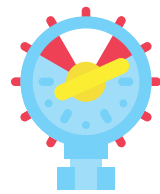

Dear Yookidoo Family,

While the world has changed during the last few years, the demand for what Yookidoo stands for – creating sustainable and innovative developmental toys – has been stronger than ever.

We have raised the bar on several exciting fronts:

Bestsellers stronger than ever

Toy sales every 24 sec.

New distributors around the globe

With the growth of online shopping and the role social media plays in parents' decision-making process, we've seen the importance of directly connecting with our consumers. Consequently, during the past year we've significantly increased our investment in online campaigns and rebuilt our website so as to be more accessible to parents. In addition, we focused on providing marketing resources that enable distributors to communicate Yookidoo's mission and toys' play values effectively.

We are proud to present our new collection of "Yookidoo Circus" toys, designed to bring the joy of a magical circus into every child's playtime at home. In this catalog, we invite you to discover the first products in this exciting new theme, which include the **Ball Blaster Water Cannon** for preschoolers, the **Elefontain Water Show** for toddlers, and the **Gymotion Circus Playland** for newborns.

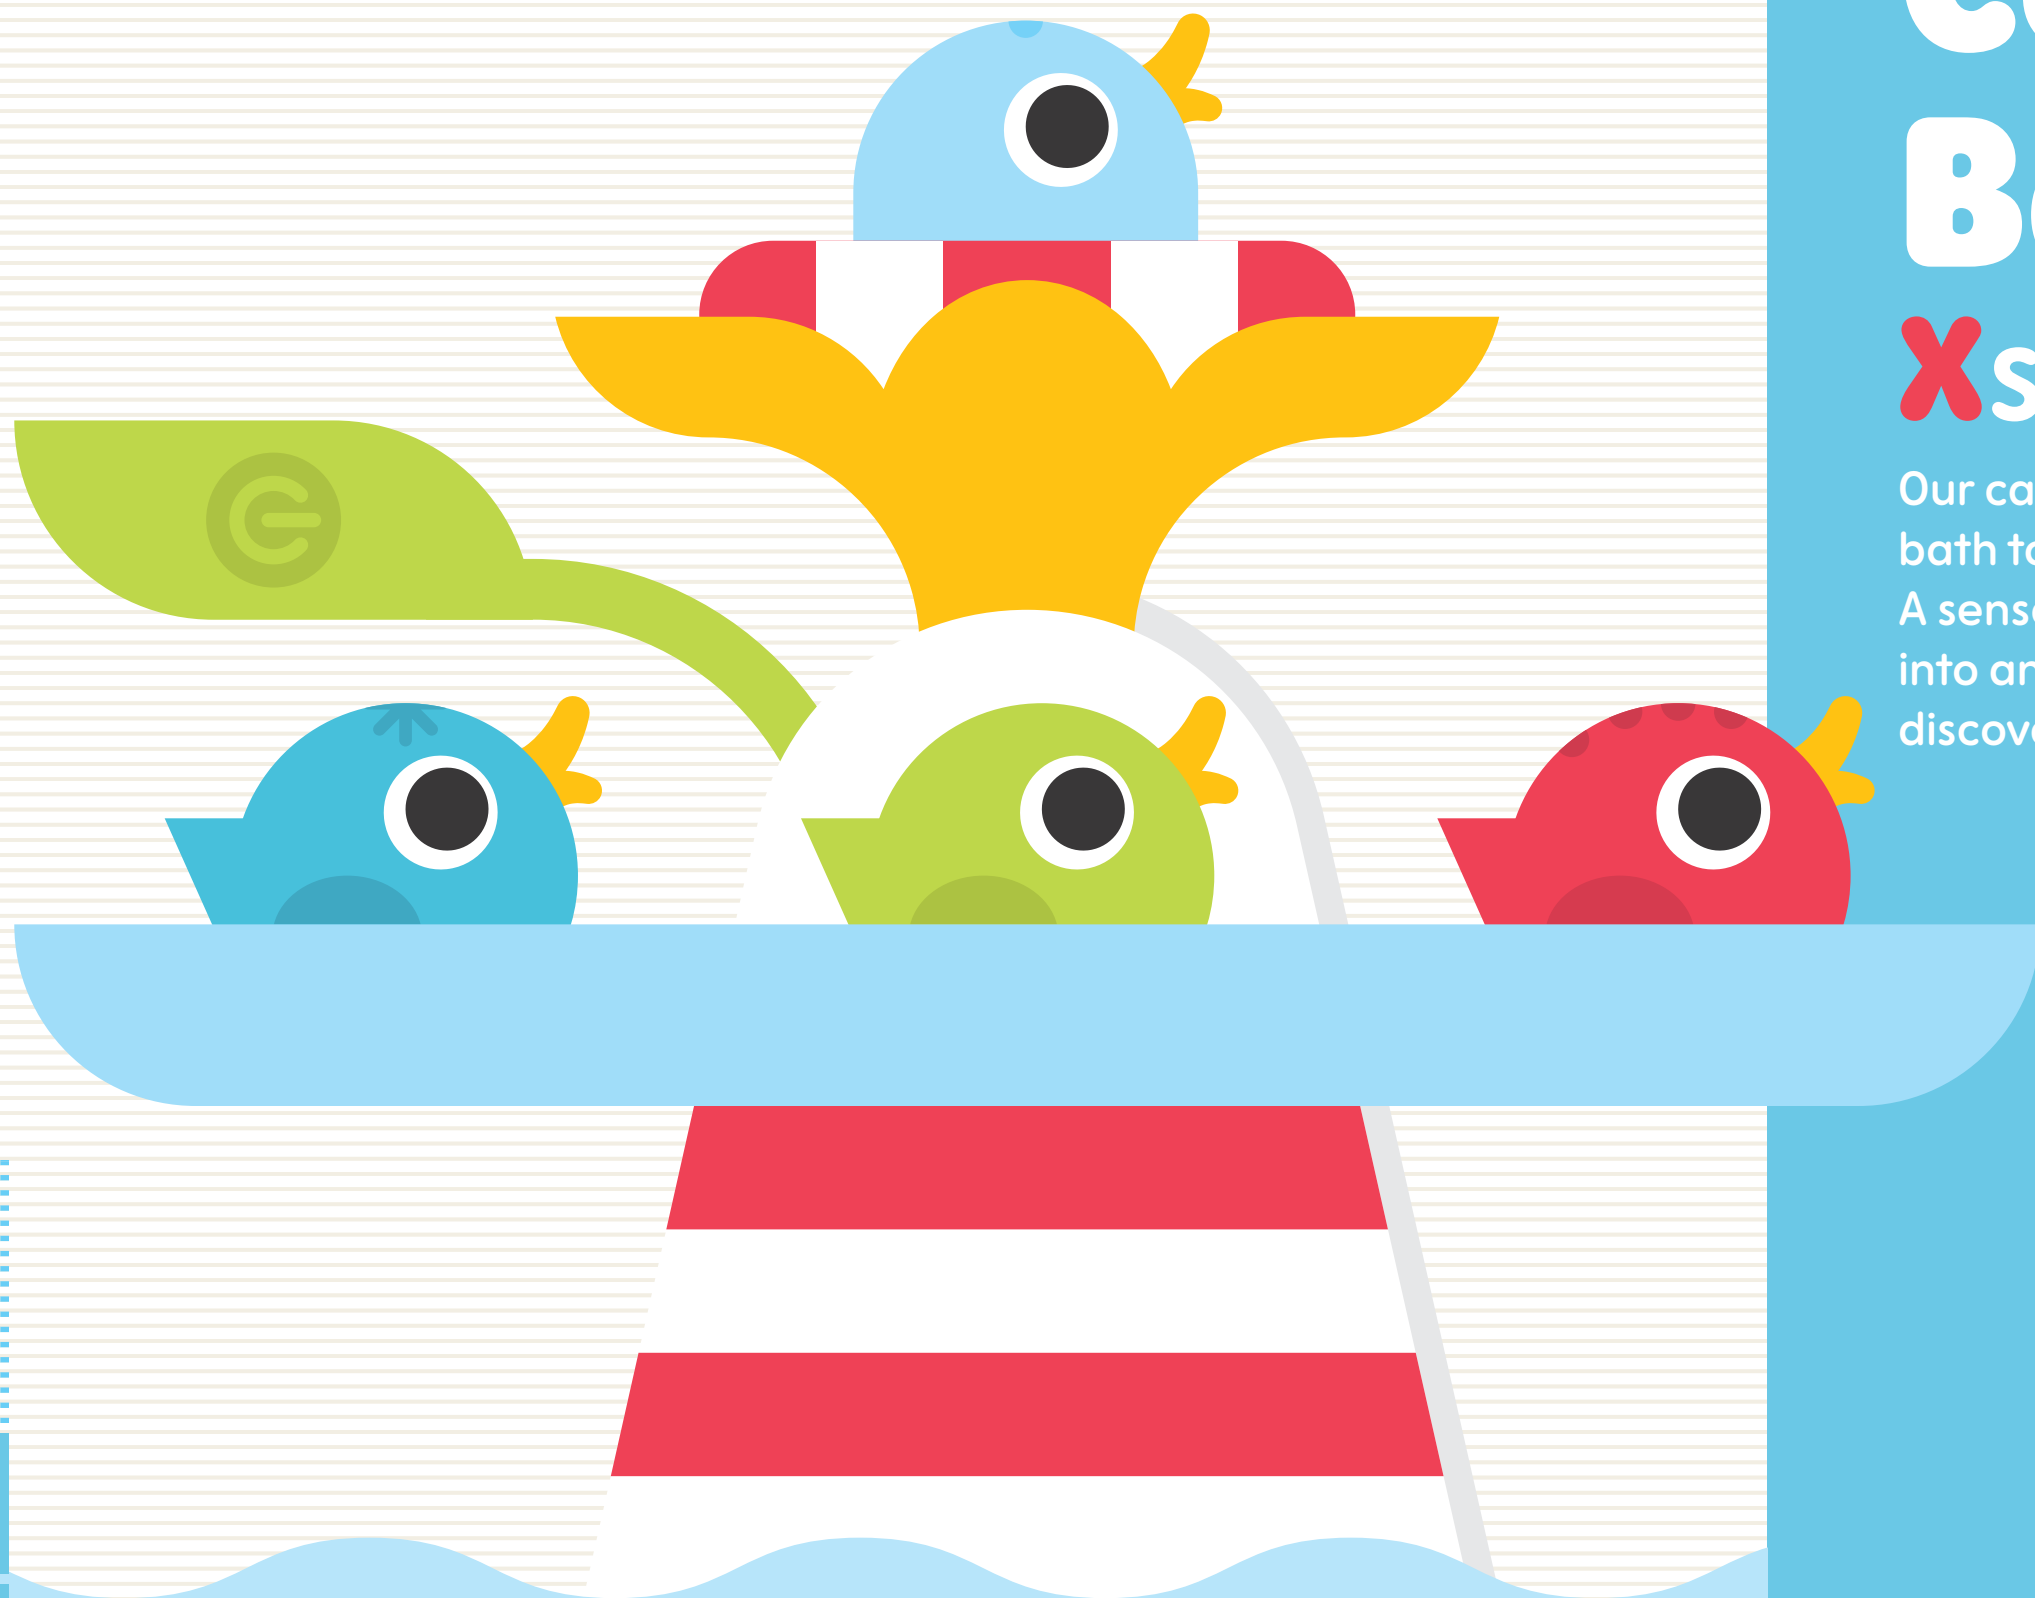

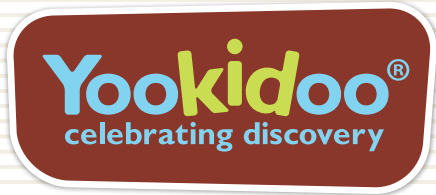

In addition, we are happy to include two great new products: The **Catch 'N' Sprinkle Fishing Set**, which transforms the classic preschoolers fishing game to an exciting bathtime adventure. The **Urban Gymotion** is a new Scandinavian-style to our 3 years in a row Amazon (US) bestseller Sit-Up.

With the unique combination of bestsellers and new, revolutionary toys, the emerging online presence that fits parent's needs today, and Yookidoo's strong family of distributors and retailers, we are well-positioned for 2022. We plan to continue working together to accelerate the joy of Celebrating Discovery® at new levels while reaching more newborns, toddlers, and preschoolers than ever before around the world.

Yours truly,

Isi Zanger
CEO

Celebrating Bathtime®

Xstream™

Our category-leading circulating water pump bath toys are every kid's dream. A sensory bonanza that turns every bath-time into an adventure overflowing with fun and discovery.

Elephant Baby Shower™

0-24 mos.

- Battery-operated compact & portable baby shower.
- Designed for safe, gentle, and easy maneuvering while bathing babies.
- Easy activation shower head with on/off knobs allowing you to easily pause or continue water flow.
- Gentle stream enabling easy reach and wash of hair, neck, and baby folds.
- Soft design for enhanced baby safety.
- Suits all types of bath tubs.
- For newborns, infants, and toddlers!
- Can be used as a bath toy at later stages.

Shower elephant trunk

EleFountain Water Show™

18-36 mos.

- A battery-operated elephant fountain toy with 4 accessories that produce an array of water effects.
- The trunk creates a shower, the spinning umbrella turns and sprays, the trumpet releases 3 streams. The ball spins on top of the trumpet stream.
- Maneuvering the accessories develops fine-motor coordination.
- The elephant and action introduce an entertaining circus scene, designed to prompt the imagination and creative thought.
- As the water creates movement, it demonstrates core physics and STEM principles, like how machines and processes work.

Catch 'N' Sprinkle Fishing Set™

2-6 yr.

- A fishing pole with a magnetic worm that catches 3 fish, creating different water effects.
- The 3 floating fish, always facing up, are ready to be caught.
- When the rod is dangled into a fish mouth, the fish can be raised. The water that has filled it will stream, sprinkle, or propel.
- One fish also has a miniature fish that will peek from its mouth when raised.
- Catching fish improves complex hand-eye coordination.
- The fishing set introduces science concepts and builds problem-solving skills.
